
FOR IMMEDIATE RELEASE

MAVERICK TO ENTER CANADA'S "ELECTRIC AVENUE" THROUGH ACQUISITION OF NORTHWIND LAKE LITHIUM PROJECT IN NW ONTARIO

Vancouver, British Columbia – June 21, 2023 – CDN Maverick Capital Corp. ("Maverick" or the "Company") (CSE: CDN; OTCQB: AXVEF; Frankfurt: 338B) is pleased to announce that it has entered into a definitive mineral property acquisition agreement (the "Purchase Agreement"), with certain arms-length vendors (the "Vendors"), pursuant to which it proposes to acquire the Northwind Lake Property, a lithium pegmatite exploration project located in the Electric Avenue Lithium District, located approximately 10km north-northwest of the Frontier Lithium Inc. (TSX.V: FL) PAK Lithium deposit in the Red Lake mining division (Ontario). The PAK Lithium deposit contains some of North America's highest-grade lithium-bearing pegmatites. The PAK deposit has a mineral resource of 7.23 MT of 1.87% Li₂O Measured + Indicated Resource and 2.76 MT of 2.22% Li₂O Indicated Resource, and hosts rare technical/ceramic grade spodumene with low inherent iron (below 0.1% Fe₂O₃)*. This area has been coined the "Electric Avenue" due to the critical minerals.

*See Frontier Lithium's NI 43-101 – Technical Report PAK Property – PAK, Red Lake Mining District dated April 2021. The Company cautions that results obtained on nearby properties do not necessarily imply the existence of similar mineralization or geological features on the Company's properties.

"With this acquisition, Maverick will increase its foothold in the lithium space: capitalizing on the enthusiasm for localized supply chains; one of the fundamental drivers for the lithium market. Ontario specifically, is injecting more and more funds as part of their mandate to make their province 'the first jurisdiction on everybody's mind' according to the Minister of Energy, Northern Development and Mines Greg Rickford. We hope to be a part of this momentum. With our increasingly diverse but strategic portfolio of projects, we are uniquely positioned to adapt to lithium development and production's innovative and progressive landscape while always staying aligned with our shareholders." said Maverick CEO Adam Cegielski.

The Northwind Lake Project consists of a series of mineral claims covering approximately 7,040 hectares (See Figure 1 for details). Pursuant to the terms of the Purchase Agreement, the Company can acquire the Project through the issuance of 500,000 common shares (the "Consideration Shares") and completion of cash payments totaling \$100,000, of which \$50,000 will be paid upon closing and the balance after 120 days. The Consideration Shares will be subject to a hold period of four months and one-day following issuance.

No finders' fees or commissions are payable in connection with the acquisition of the Project. Completion of the acquisition remains subject to receipt of any required regulatory approvals

Qualified Person

Raul Sanabria, M.Sc., P.Geo., the qualified person for the Company as defined by Canadian National Instrument 43-101 has reviewed and approved the technical information contained in this release.

About CDN Maverick Capital Corp:

CDN Maverick Capital Corp., a diversified resource investment issuer and junior exploration Company, is committed to the development of mineral projects with a focus on lithium. The Company recently acquired a significant 40,000-hectare Quebec Lithium Prospect outright and optioned the Nevasca Lithium Project in Argentina. In addition to these holdings, Maverick owns the Rainbow Canyon Gold Project in Nevada and holds over 1.6M shares in Noram Lithium Corp., a leading player in lithium development. With a strong commitment to sustainable and ESG-friendly investing and exploration, Maverick is actively seeking to expand its diverse critical minerals portfolio across the Americas.
